+ BUSINESS ENVIRONMENT IN B&H: IN 2014 RECORDED A DOWNFALL OF ALLOCATIONS IN AGRICULTURE FOR 19,5%

As the art of project "Business environment B&H" of the Institute for Youth Development KULT, a study was completed on budgetary incentives which institutions of government appropriated for the development of the economy in 2013 and 2014, in the form of grants and repayable funds. The survey covered 133 institutions and more than 600 million of funds allocated for incentives in the economy of Bosnia and Herzegovina. The research, according to the Institute, showed a negative trend of budget support to B&H economy.

"Total incentives for the economy, the institutions that provided data, planned to 390,892,989.18 KM in 2013. ie 330,040,331.93 KM in 2014, while completed incentives amounted to 325,606,866.42 KM in 2013 and 262,237,336.36 KM in 2014. The sum total of completed industry incentives, in both years, amounts to 587,844,202, 78 KM. Thus, decreased appropriations economy by 19.5% in 2014 "- said Rusmir Pobric, project manager of project "Business environment B&H" at the Institute for Youth Development KULT.

The research showed that agriculture was the largest contributor to the overall economy of incentives in both years and with a share of 54%. This is followed by industry with 18%, followed by services, development of entrepreneurship and crafts, and tourism. It is interesting that for the IT sector, which in recent years the most wanted profession, there was no separation. The most common sectorial branches are education (34.6%) and sport tourism (27.6%), while completely unrepresented mountain and sea tourism (0.0%). There are also a poor representation of ecological, health and religious tourism (0.5 to 1.3%) in the total incentives for tourism, added Pobric.

The research results will be used as one of the sources for the analysis of the situation in the field of budgetary incentives to prospective industries in B&H. Analysis of the situation, with the identified promising industries, will serve as a platform to create precise guidelines for improving the process for all financial institutions that encourage and stimulate economic development.
